

Bag Filter Housings

Stainless steel bag filter housings suited for a wide range of applications. Ideal for reduction of bulk particulates from water supplies. Bag filter elements are available in a range of materials, most commonly polypropylene, and cover a wide range of performances from 1 micron to 200 microns.

BAG SIZE

- 1# 180*410mm/ 7*16inch
- 2# 180*820mm/7*32inch
- 3# 102*230mm/4*9inch
- 4# 102*360mm/4*14inch
- 5# 152*560mm/6*22inch

Application

- Chemicals and chemical processing.
- Food & Beverage – Soft drinks, syrups, oils.
- Water Treatment – Process water.

Product Paramenters

Product Size	Diameter (inch/mm)	Length (inch/mm)	Flow (m3/h)	Filtration Area (mm2)	Volume (L)
#1	7/180	16/410	20	0.19	7.9
#2	7/180	32/810	40	0.41	17.3
#3	4/100	9/230	6	0.05	1.4
#4	4/100	14/360	12	0.09	2.5
#5	6/152	22/560	12	0.22	8.1
